Core Committee member-RoboVITics club   May 2024-Present
VIT Vellore
- Member in Website team of Robovitics

TECHNICAL SKILLS

- **Programming Languages**: HTML, CSS, JavaScript, Java, C/C++, Python
- **Frameworks and Libraries**: React,Tailwind CSS,Bootstrap
- **Soft Skills**: : Communication, Problem Solving, Team Work, Adaptability, Work Ethic

PROJECTS

Weather App | Github Respository
* Developed a web application using **React** to provide real-time weather information. Integrated with a weather **API** to display current conditions such as temperature and humidity. Features include location-based forecasting and a clean, intuitive interface.

News website | Github Respository
* Developed a news website with integrated **API** functionality using **HTML**, **CSS**, and **JavaScript**. Demonstrated proficiency in end-to-end web development.

Studysync | Github Respository
* StudySync is a hands-on project that I've developed, utilizing web technologies **HTML,CSS**.

ACTIVITIES

- Enjoys the sport of tennis and has participated in multiple State-level tournaments in the past.
